

Accessibility Remediation Fast Facts

We're here to offer a turn-key solution to ensure your IR website is accessible.

1 What is It?

Notified's Accessibility Scanning and Remediation service offers a 4-step process to identify, recommend, and remediate issues quickly.

2 Why should I care?

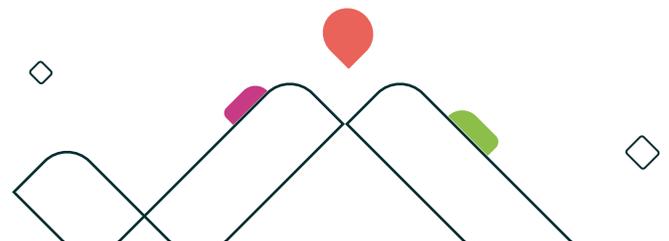

Having an accessible website is a legal requirement for most companies and can improve your audience reach, user experience & engagement. Accessible IR websites can also improve your SEO ranking and increase your company's searchability on engines like Google.

3 Who do I call to get started?

You can reach out to your Notified Service Representative or visit our [IR solution page](#) to learn more.

4 How does it work?

1. We do an initial scan of your website using our accessibility scanning tool
2. Our expert IR team reviews the report results with you and gets your approval for proposed changes.
3. Our team provides up to 25 hours of remediation work to ensure your website is accessible
4. Every quarter we complete an accessibility scan and share the results of the scan with you. If any issues are flagged, we include up to 25 hours per year to remediate.
